Turkey's Household Name in Honey

Balparmak has been delivering healthy, natural and delicious honey to consumers since it was founded in 1980. The company pioneered the development of Turkey's honey industry and now operates a 30,000-square-meter facility with an annual packing capacity of 32,000 tons. Balparmak differentiates itself through the standard of quality it brings to consumers, and has been an industry leader for a long time. Balparmak produces all of its products in facilities that operate in accordance with international standards, implementing the BRC and FSSC 22000 Food Safety Management Systems as well as the ISO 9001 Quality Control System. Our products are certified through the TSE (Turkish Standards Institute) Compliance Certificate, and are guaranteed Halal and Kosher. We test our products in our state-of-the-art laboratory, which is internationally accredited under ISO/IEC 17025.

Balparmak has won many national and international taste and quality awards.*

Balparmak is an internationally recognized honey packing company in the world. We rank at number 4 in size and capacity. Our core principles are to maintain long-term and productive relationships with people and businesses we partner with.

We are intent on never losing sight of the true source of our "greatness", which is our relentless commitment to ensuring our consumers enjoy the finest 100% natural pure honey.
